

<p>Topic Distinguishing between male and female grizzly bears</p>	
<p>Learning Outcome(s) <i>Start with the end in mind.</i> By the end of this mini lesson participants will be able to distinguish between male (boar) and female (sow) grizzlies by reviewing characteristics and photos</p>	
<p>Introduction Opening: How will you capture our attention? Belonging and Norms: What instructions will you give to set the tone? Pre-Assessment: How will you check prior knowledge and readiness to learn? How many people have seen grizzly bears when hiking or driving? How many of you have been curious if it was a male or female? What if I told you there was a very simple way to tell the difference? Let's get into the details</p>	
<p>Activities <i>How will you make your lesson interactive? How will you apply VARK?</i> Visual: Power point presentation Auditory: Descriptions of both sexes Read and Write: Handouts with descriptions of both sexes for reference Kinaesthetic: Interactive group discussion identifying sex of animals in power point</p>	<ul style="list-style-type: none"> <input type="checkbox"/> Brainstorming / discussion <input type="checkbox"/> Demonstration <input type="checkbox"/> Fill in the blank <input type="checkbox"/> Game <input type="checkbox"/> Graphic organizer <input type="checkbox"/> Handout <input type="checkbox"/> Mind map <input type="checkbox"/> Movement <input type="checkbox"/> Poll / quiz <input type="checkbox"/> Props <input type="checkbox"/> Put photos / steps in order <input type="checkbox"/> Role play / Case study <input type="checkbox"/> Storytelling <input type="checkbox"/> Visuals <input type="checkbox"/> "What happens next?" <input type="checkbox"/> Writing / drawing / colouring <input type="checkbox"/> Other
<p>Assessment <i>How will you know that the outcomes have been achieved?</i> Individuals will decide whether bear in the presentation is male or female based on the criteria in the handouts and the reason why they made that choice</p>	
<p>Reflection & Application <i>How do learners use their new-found knowledge? What are their next steps?</i> Learners can make a better informed decision on what sex a bear is when they see one.</p>
